For Zoom users: With the rush to shift to online meetings, many of us did not take time to investigate what this meant to the spiritual foundation of our recovery – namely, anonymity. Now that online meetings are accessible, we want to pass on best practices for protecting anonymity. These have been curated from the membership and online resources.

The default Zoom settings run counter to AA's spiritual foundation of anonymity. The meetings are publicly accessible and full names and faces are often displayed. Additionally, by default all Zoom meetings are recorded to the cloud. **Turning that feature off is simple, fortunately.**

Suggested Meeting Setting Changes to Preserve Anonymity

Here are some suggested settings for your meeting to use. Please note that most, if not all, of ***the settings below are not the Zoom default:***
