

OVERVIEW OF COUNTY-SPECIFIC REQUIREMENTS

The CCFAA has member groups and meetings in eight (8) Northern California Counties. The health department in each county has been contacted to obtain county-specific protocols and re-opening guidelines.

It is suggested that each meeting pay close attention to the county requirements and complete and keep copies of the documentation with the copy of the email from the county health department on hand during all meetings.

Please submit a copy of the completed county protocol form to centraloffice@aaasacramento.org to have your meeting listed in our schedule and on our website.
